

## AMERICANS HAVE LAUNCHED BIG OFFENSIVE IN THE ST. MIHIEL SECTOR

### EXPECTED ATTACK BEGUN ON 20 MILE FRONT NEAR THE GERMAN BORDER LINE

Great Concentration of Artillery has Been Made at Point of Attack; First Wave Meets With but Little Resistance; Primary Object of Drive is to Wipe Out the Salient Projecting Into Allied Lines; Boche Citadel of Metz 15 Miles Away.

### BRITISH CROSS CANAL DU NORD IN NORTH

By Associated Press.  
AMERICAN FORCES ON THE LORRAINE FRONT, Sept. 12. (Reuter's).—French and American forces this morning launched an attack against the German position on both sides of the St. Mihiel salient.

The attack was preceded by a barrage lasting four hours. The attack on the southern side of the St. Mihiel salient was made along a distance of 12 miles. The attack on the western side was on a front of eight miles.

There has been a great concentration of Franco-American artillery and Entente airplanes are operating in large numbers.

The first wave of American troops met with little resistance and at 8 o'clock the second American wave was in possession of several points of the German first line.

The Germans now are falling back on the front on each side of the St. Mihiel salient. Though undoubtedly suspicious of the intentions of the Americans in this region the Germans were unaware at the time of the direction of the attack. The American troops are all intensely eager and are fighting magnificently.

The movement evidently is aimed primarily at the elimination of the famous St. Mihiel salient, which for more than four years has projected into the Allied line southeast of Verdun.

The German citadel of Metz lies only some 15 miles to the northeast of Font-a-Mousson at the easterly edge of the salient under attack and it seems not beyond probability that this may be a further objective of the offensive, should it develop favorably in the crushing out or material reduction of the salient.

### ENGLISH THREATEN CAMBRAI DEFENSE LINE.

LONDON, Sept. 12.—British forces have effected a crossing of the Canal du Nord to the northwest of the town of Havrincourt, Field Marshal Haig announced in his official report today. The canal line here forms the main defense of Cambrai on the southwest.

A short distance to the north the British have pushed to the westerly bank of the canal, east and north of Moeuvres and established themselves there.

In their advance towards St. Quentin the British have progressed as far as the western outskirts of Molnau woods southeast of Attilly.

The Germans offered stiff opposition in the Havrincourt and Moeuvres sectors which the British overcame.

British troops have captured the towns of Vermand, Attilly and Vendelles on all the fronts, northwest of St. Quentin, Field Marshal Haig announced in his official report today.

### EMPEROR WILLIAM NOW READY FOR PEACE.

AMSTERDAM, Sept. 12.—Speaking at the Krupp munition works at Essen Emperor William declared that every one in the remotest corner of the fatherland knew that he had "left no stone unturned to shorten the war as far as possible for your people and for the entire civilized European world."

The emperor said it took two to make peace—that one could not do it unless he could overcome the other. Germany, he declared, was confronted with an enemy's will to destroy her and she must place against her determination to preserve her existence.

After mentioning his offers of peace the emperor said that the German leaders had made it plain to everyone who wished to understand "that we are at all times ready to offer the hand of peace."

### FANKS LAY HEAVY BARRAGE ON GERMANS.

AMERICAN FORCES ON THE LORRAINE FRONT, Sept. 12.—French and American artillery this morning directed a terrific barrage fire on the German position on this front. The reply of the German big guns was vigorous at some places although as a whole it was weak.

There are some indications that the Germans are withdrawing their artillery although it is more probable that they are going to fight hard before being driven out after enduring a sufficing barrage of more than eight hours.

The Germans at some points are increasing the volume of their big gun fire but ineffectually. The weather is fine. The attack made by the French and the Americans was a most daring one and so far has been successful.

### PREMIER LLOYD GEORGE SPEAKS AT MANCHESTER.

MANCHESTER, England, Sept. 12.—"Nothing but heart failure on the part of the British nation can prevent our achieving a real victory," said Premier Lloyd George, speaking today at Manchester.

The Premier said that the British casualties in the last offensive in France were one-fifth of what they were in 1916.

### SYSTEM BY WHICH IDLE COKE WORKERS WILL BE REPORTED

"Could He Have Worked if He Had Wanted To?" the Test for Each Man.

### CLOSE PERSONAL TOUCH

With Employees the Best Means of Securing Their Cooperation; The Faithful Workers Must Be Given Recognition; Results Are Splendid.

W. L. Myers, production manager for the Fuel Administration in Fayette county, has sent out to the operators of the Connellsville region the system for reporting idle men which was adopted at a recent meeting of the production committee. The system is described in detail as follows:

"Reporting Idle Men: Every idle man should be reported to us on the Men slips every day he is absent, unless the superintendent at the plant is sure he is sick or disabled or is prevented from work on account of a shortage of cars or some other reason for which the man is not responsible. The test of whether he should be reported or not is, 'Could he have worked if he had wanted to?' Any man who could have worked and did not, should be reported and the reason given. The man who could not have worked if he wanted to should not be reported. The reason is the most important part of the report."

"One of the best results of these reports has been that the management comes in close personal touch with the men, an intimate interest in their welfare. Troubles and the things they are thinking about, which gives a wonderful advantage in helping them to work steadily and maintain the right viewpoint on the situation. This is real leadership and men will do much for the leader who helps and leads them for the one who attempts to drive. Our workmen are all human and subject to the same emotions, likes and dislikes that we are and the same treatment will in a measure bring the same results. Above all let us get their hearty, willing cooperation and avoid strong arm measures unless disloyalty is in evidence."

"Posting Names: Post each day every man in the plant sick or well who is idle with the reason, on a board to be called 'Men Idle.' 'Posting' is important that this posting be done every day. If it is not it is worse than useless. It is strongly recommended that this board shall not be called the 'Slacker Board.' A slacker list should be separate and only those posted on it who after careful investigation are found to have no excuse, drunk, etc."

"Recognition of Merit: Post a list each half month of the names of the men who have worked full time during that half. Give this a little so stating. Operators who have tried this say that they have obtained surprising results."

"We are not trying to run the plants out endeavoring to use the governmental agency to push production and must be guided largely by you in the methods we use."

"Send in any suggestions you have and they will be given careful consideration. This all entails more work for all of us, but it is part of the war, and we in the coke region are being depended upon more than those in any other district to furnish a maximum tonnage of good fuel."

"We are now particularly in the limelight in Washington because of the good work we have done, and we must do even better. Our office is short of help and we have not been able to give you nearly all the assistance we hope to, but we have a very large district and assure you we are at it all the time."

"Please keep us posted on everything which you can see in the future will affect production and use your best efforts to avert conditions before they arise."

"If you have any steady workers on the plant who are drafted find out from them if they will accept industrial exemption and if so apply for it. If they are not steady workers let them go along and fight."

"On the behalf of the Fuel Administration we thank you for what you have done and now since we have adopted the system recommended by practical representative operating men in this district we feel sure of a greater production of our coal and coke, the supply of which we have been told by the War Department will determine the length of the war and the number of boys who will lose their lives."

Wounded in Action.  
Frank Turney of Greensburg, and Frank Shoup of Youngwood, both members of Company I of Greensburg, were slightly wounded in action and are in a hospital in Paris.

### LETTER FROM 110TH OFFICER TELLS HOW CO. C FOUGHT TO END

Somerset Command Practically Wiped Out; New Company Has Been Organized.

Only 68 men of Company C, 110th Regiment, of Somerset, can be accounted for, and a new Company C has been organized, commanded by Lieutenant Scott of Company C, Monongahela, formerly battalion adjutant, according to a letter written by an officer of the 110th Regiment to a Somerset resident.

The letter written on August 10, states:  
"Dear 'Bob':—You no doubt received the checks sent you some time ago for the balance of the fund raised for the old Company, and likely you have heard before this of the fate of Company C and understand why the money was sent to you."

"There is a new Company C now, not the one that you and the contributors to the fund knew and loved, so we thought it best to return the balance and when the proper time comes it might be used for a memorial of some kind."

"This morning we checked up the old company and can account for 68 men, as follows: 25 killed, 16 in hospitals, 28 present."

"The last number includes those with the kitchen and those who had been on detail with the scout section and at rail-head, together with those who returned from the fight. This leaves 150 missing."

"We have very good reasons for believing that the missing are prisoners of war, and our belief is strengthened each day. Yesterday we were told by some French residents of a town we passed through that on the day following the battle 160 American prisoners passed through the place in one bunch."

"Today we learn from a German newspaper that nine officers and 250 prisoners (Americans) were taken on the first day of the second battle of the Marne river. This would account for all of the missing."

"An order came down directing that two companies be sent to aid the French in holding a very important position on the front line. Companies C and B were selected, as they were considered the best fitted. The companies were separated some distance, with French on both sides and between them, with definite orders to hold in case the Hun decided to strike."

"Posting Names: Post each day every man in the plant sick or well who is idle with the reason, on a board to be called 'Men Idle.' 'Posting' is important that this posting be done every day. If it is not it is worse than useless. It is strongly recommended that this board shall not be called the 'Slacker Board.' A slacker list should be separate and only those posted on it who after careful investigation are found to have no excuse, drunk, etc."

"We are not trying to run the plants out endeavoring to use the governmental agency to push production and must be guided largely by you in the methods we use."

### STREET FAIR FUNDS HELD BY BODY NOT PART OF RED CROSS

General Fair Committee an Independent Organization of Citizens.

### SAY WHERE MONEY GOES

Will Not be Turned Over Until Proper Authority is Given, Which Must Come From the Fair Workers; Executive Committee is Cautious.

The fear the promoters, workers and patrons of the street fair have that the proceeds will go to quarters not intended they should reach, can be in a measure allayed when it is known that these persons will themselves designate the beneficiary. It is apparently not generally understood that while the fair was designed for the benefit of the Red Cross, it was not given under the auspices of that organization as a Red Cross function.

Neither is it clearly understood that the fund raised is being held by an organization that is independent of the Red Cross, and that the executive committee of the Fayette county chapter cannot direct how this organization shall dispose of the fund.

Many members of the executive and other committees of the fair are members of the Red Cross, but the organization which planned and held the fair consisted of a group serving as private citizens in the conduct of the enterprise, hence they have both the power and the authority to indicate where the money shall go, as well as to impose the conditions under which its expenditure shall be made.

These facts were made perfectly plain by Chairman M. B. Pryce, chairman of the executive committee of the fair, during a conversation with a Courier reporter last evening. "Just as soon as the receipts of the fair have been checked up," said Chairman Pryce, "I will call a meeting of every person who had a part as a member of a committee or worker in any capacity in the fair. After the complete and final report of the finance committee is submitted at this meeting, I will ask those in attendance to designate by resolution or otherwise what disposition shall be made of the proceeds of the fair. It is the desire of the fair workers that the money be turned over to the Fayette county chapter of the Red Cross, there it will go. Just as certainly will it go to the Connellsville branch for its exclusive and proper use if that be the expressed wish of those who were instrumental in making the fair the most remarkable event of the kind Connellsville ever saw."

"Until such action is taken the money will remain in the custody of the treasurer of the finance committee of the fair, out of whose hands it cannot be taken by the Fayette county chapter by the Connellsville branch, or any other body without first securing the proper authority which the general fair committee and the workers alone have the right to give. This is not a question for debate or argument. To use an expression of Chairman Kuriz of the Fayette county chapter, 'It is a matter of hard fact' that the money is in the possession of the organization through whose efforts it was raised. It is a matter of still harder fact that the money will remain where it is until those who placed it there say where it is to go."

The information revealed in the statement issued by Chairman Kuriz yesterday, that at a recent meeting the executive committee of the Fayette county chapter had voted that all monies on hand or hereafter raised by branches and auxiliaries "from whatever source or in any manner, be turned into the county organization" has occasioned considerable concern of the county organization. It is very generally stated that had the promoters of the fair and the public generally been frankly informed of this action before the street fair was held, much if not all of the unpleasure has been avoided because the conduct and patronage of the fair would then have been without misapprehension as to the use that was to be made of the money.

It is no doubt true that the fair would have lacked the enthusiasm displayed by its workers had it been known that there was to be a division of the proceeds, but there would be no misunderstanding such as has occurred to mar the fine spirit manifested during the event.

Local branch members contend that the executive committee should have referred a question of such importance to the branches before taking final action. That such was not done creates the impression that the executive committee entertained doubts that such a proposal would be sanctioned by the branches.

### STREAM OF REGISTRANTS FLOWS STEADILY INTO THE ENROLLMENT PLACES

### TOM O'DONNELL IN TRENCHES 44 DAYS; SAW CO. D GO "OVER"

Says Local Boys Did the Stunt "Beautifully" and Got Twelve for One.

Writing to a friend here, Tom O'Donnell, of Kearsney, a member of the 110th Machine Gun Company tells of chasing the Huns. He says he has been in the front lines for 44 days and at one time the Boche lines were only 100 yards distant. He says:  
"Your welcome letter I received this morning (Aug. 18th) and I was glad to hear from you, for your letters certainly cheer me up. A letter is a great thing here, about the only cheering thing we have in the front lines. Oh no, I'll take that back, we got some stuck peppermint candy last night and it made feel like a boy again. It was good and tasted the same as it did on Christmas morning twenty years ago. A fellow needs something to keep him looking young over here."

"Today will make our 44th day in the firing line. We hear the continual roar of the guns and the concussion of the shells will knock you down if they come within fifteen feet of where you stand. But after 44 days and nights of it, the boys are still smiling and there isn't one of them who would want to go home until it is all over Over Here."

"I have seen the Jerries run and run—and when they couldn't run—they fell. On the night of the big battle, those who did not run, sure did fall. The dead Germans just covered a hill on which they were. Of course there were American boys who fell also but we got twelve of the enemy for one American. Our line last night was but 300 yards from the Boche line. This is some life, we eat every 24 hours. The eats come up just at night, and not then if the moon is shining. If it shines very brightly, we don't eat, for if you ever put your head over the parapet, off it goes, but we sure eat good, when we do eat."

"I saw Company D boys go over the top, our company being stationed with machines near them, and they did the stunt beautifully. I passed young Roosevelt's grave and I saw that Chicago brass manufacturing man's son killed while in battle with six Boche planes and three Allied planes."

"You should see my trench home, it is about 8 feet deep, 30 inches wide with a hole in the side about 36 inches and six feet long, it is big enough for two. In my room (3) I can see daylight for a week at a time. The worst thing we have here are the flies, worse than the 'cuties.' They eat you alive."

### Men Between Ages of 18 and 45 Years Pledge Services to Government.

### ANSWER 20 QUESTIONS

Registration Blank Gathers Full Information Concerning Registrant; 25,000 Men Expected to Enroll in Fayette County; 6,000 in This City.

Registration of men between the ages of 18 and 45 years was steady in all the wards of the city today. From the time the polling places opened at 7 o'clock this morning there was a continual line of men waiting to be enrolled by the registrars. At no time this morning was there any great lull, but around noon the registration was somewhat heavier, many men stopping at the polls on their way to lunch.

Sons, brothers and fathers in several instances registered today. In all, it is expected, that about 25,000 males in Fayette county will be enrolled for military service.

The registration machinery today moved smoothly. All preliminary preparations had been made by the local boards in the county, of which there are seven, the chief registrars and their assistants having previously been given instructions on the method of enrollment.

In the seven city wards there were men waiting when they opened at 7 o'clock this morning. Others who go to work at an earlier hour will register before the closing time at 3 o'clock tonight.

In being enrolled, the registrant simply answers the questions on the registration blank which is filled in by the registrar. There are 23 of these questions which are easily answered and will not confuse the registrant. The registrant is then given a card which shows that he has been enrolled. It is important to have the registration card always on hand.

The registration today is expected to bring the total number of men enrolled in Fayette county to 50,000. The first draft in 1917 produced 15,000 from this county, and 25,000 are expected to register today. The other drafts of June 5, 1916, and August 24 would supply the other 6,000.

At the coal and coke plants, officials are registering their employees so it will not be necessary for them to lose a day to go to the polling places and enroll. Arrangements to have this done were previously made and the plan is working smoothly.

The system for recruiting the army by Provost Marshal General Crowder is entirely selective. By registration men between the age limits pledge their services to the government in whatever capacity the war officials deem will hasten the day of victory. Each registrant is required to fill out a questionnaire and from the answers made therein the draft officials determine whether the military program will be further advanced by induction into the army or by remaining at his civilian occupation. No man will be forced to ask for exemption or deferred classification and no man will be permitted to forego exemption if upon examination of his statement of facts, it is decided that he is more valuable to the country as a civilian than as a soldier.

## Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Charles H. Fletcher*.

### JOHN BROWN WRITES OF BOXING MATCH.

Candidate John R. Brown, who is at an officer's training camp in France, humorously describes a boxing bout in which he participated, in a letter to his wife. He writes as follows: "We have large meets here every afternoon, such as racing, boxing, pillow fights, cross country, ball races, etc. They have quite a large arena which reminds me of Pennsylvania bowl. Seats have been erected, grandstands for the officers, and a band stand. We have quite a time."

"Everyone must compete. I was drawn to box. Can't you picture me doing a Jack Johnson wiggle. I fought, but I lost and, but for the help of the good Lord I would have been murdered. The 'bird' rapped me a few times and stunned my reasoning. The first one shook me fairly, but I came back with a smile. Then he banged another one in the same place. My senses were premonishing for a few seconds. I swung frantically with intent to kill, but of no avail. He had left the spot. Well finally I came out with nothing more than a blistered foot, caused from running around the ring. It was great sport for those in the grandstand, but I can't figure out how Jack Johnson held the championship with a fellow like my opponent running loose."

### EXPECTS TO BE HOME FOR CHRISTMAS DINNER.

James Cunningham, who is in military service in France, writes his aunt, Mrs. J. W. Howard that he hopes to be home for Christmas dinner. The letter states: "I am feeling fine. Have not been sick a day since I landed and hope to me that way until I get back to sea, which I don't think will be a very long time. I do not know just when, but I hope to be home for Christmas dinner. I was at mass this morning and they surely do have some fine churches here. They are all marvellous."

## DARR IS APPOINTED

Factory Inspector Is Made Labor Enrollment Agent.

Factory Inspector J. S. Darr received word yesterday from J. C. Praeger head of the state labor and industries bureau, that he has been appointed the official enrollment agent for the Fayette county district. The orders for Inspector Darr came under the supervision of William E. Hall, national supervisor of labor and industries in the United States. Inspector Darr has the full authority to enroll members, advise them and direct them to the local labor bureau. The local labor bureau, which is managed by D. T. Hildebrand, will work in cooperation with Inspector Darr. The recent appointment will greatly aid Inspector Darr in adjusting and managing labor trouble in the county.

## ONLY NEEDED TO BE FED

Simple Reason Why Imported Engine Could Not Be Persuaded to Do Its Duty.

The first locomotive used on the Champlain & St. Lawrence railroad came from Europe, accompanied by an engineer who, for some unexplained reason, had it caged and secured from public view. The trial trip was made by moonlight in the presence of a few interested persons, and it is not described as a success. Later, the imported engine made several attempts to get the Kitter-ton for such was the nickname applied to this pioneer locomotive—in motion toward St. Johns, but in vain; the engine proved refractory, and horses were temporarily substituted for it.

Meanwhile, the railroad officials called in a practical engineer from the United States, who announced that the engine, which was thought to be hopelessly unmanageable, was in good order and required only plenty of wood and water. His opinion proved correct, for after a little practice the engine attained the extraordinary speed of 20 miles an hour!—Front's Railways of Canada.

**What It Came To.**  
"Two figured the whole thing out," said Mabel. "The car, to be sure, with cost \$5,000, which at 6 per cent is \$300 a year. If we charge 10 per cent for depreciation it will come to \$300 more. A good chauffeur can be had for \$25 a month, or \$1,500 a year. I have allowed \$10 a week for gasoline and \$5 for repairs. The chauffeur's uniform and furs will come to about \$200. Now let's see what it comes to. Three hundred plus 300—"

"Don't bother, my dear, I know what it comes to," said the old gentleman. "What?" asked the girl. "My dear," said the father impressively, "it comes to a standstill, right here and now."—Richenza

## Parowax Means "Safety First" For Preserves, Jams and Jellies

Economical Insurance Against Deterioration

Now that the time is here when you start putting up preserves, be sure you lay in your supply of Parowax. Next to being certain that your glasses and jars are spotlessly clean, Parowax is your most important essential.

Whether you use the "cold pack" (which is so rapidly gaining in favor everywhere) or the more popular method of preserving with the fruit syrups, you can insure protection by the use of Parowax.

When Parowax is used to seal preserve jars and to pour on the top of jellies, you know that air, dust and germs simply can't get in to affect the good things you have made. They are safe when you use Parowax.

Look for the familiar blue package. Parowax is sold and recommended by all grocers. In case your grocer is sold out, he will gladly get it for you. This season especially it is important to put up plenty of preserves, in order to release other foods to our Allies. Let Parowax help you show your patriotism.

Mrs. John Herzog had as her guests over the week-end Mrs. John Fassett and daughter, Thelma, and Mrs. M. Turk of Westville, Ill., and Mrs. Edward Herzog and daughter, Grace and Evon, of Hecla.

#### DO IT FIRST.

Let Your War-Savings Appropriation Be Your First Duty.

Don't wait until all expenses are paid before you decide how much you ought to save to help win the war. There may be nothing over. Make your savings appropriation, first and make it big. They live on what's left. That's the only right way to treat Uncle Sam. Liberal interest is paid on savings at the old, reliable First National of Connelville.—Adv.

#### Card of Thanks.

Mrs. Annie Griglack wishes to thank all those who so kindly assisted her in her late bereavement, the death of her daughter. She desires to thank those who so kindly sent flowers and the pallbearers.—Adv.

## IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. It attacks all classes, regardless of age, sex or conditions. A majority of the life-afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleepiness, nervousness, despondency, backache, stomach trouble, difficulty when urinating, pain in joints and lower abdomen, salt stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nat-

ure's signals to warn you that the kidneys need help. You should use GOLD MEDAL, Haeurlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Do not wait until tomorrow. Go to your drug-gist today and insist on his supplying you with a box of GOLD MEDAL, Haeurlem Oil Capsules. In twenty-four hours you should feel health and vigor returning and will bless the day you first heard of GOLD MEDAL, Haeurlem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

### At the Theatres

#### THE PARAMOUNT.

"MERELY PLAYERS"—A five part World attraction, featured by prominent screen stars, including Kitty Gordon, the celebrated English actress, Irving Cummings, George MacQuarrie, John Hues and Muriel Osbourne, is being presented today. Miss Gordon is the star of the production. She appears as Nadine Trent, a wealthy widow, who is interested in amateur theatricals. She even has a private theatre in her home and presents plays for her own amusement. Miss Osbourne plays the part of Vera Seynave, a young girl, who is Nadine's protégé. Nadine secures a position as an understudy in a big production for Vera and finally appears before the public in the leading role. Rodney Gale, a dramatic critic, is most severe in his criticism of her acting and says she was never made for an actress. The girl takes the critic's words to heart and happily for both Vera and Nadine, "Merely Players" has been declared by those who know to be an ideal vehicle for Miss Gordon. It gives her the opportunity of wearing a large number of the very latest gowns and it gives her the further opportunity of splendidly displaying her histrionic abilities. An interesting Weekly review is also being shown. Tomorrow and Saturday Theda Bara will be produced in "Under the Yoke," a five act production.

#### THE ORPHEUM.

"THE GUN FIGHTER"—A powerful Triangle drama features William S. Hart. Friday and Saturday Charles Ray in "Playing the Game." Booted and spurred, with chaps and a wide sombrero, Charles Ray, the famous Thomas H. Ince star, is the central figure of the story of "Playing the Game," his newest Paramount picture, which has just been released. This is a strong story of the Southwest.

### BLISS NATIVE HERB TABLETS

A RUN DOWN SYSTEM is like a run-down clock. Unless tuned up it is of little use. If you are run-down from over-work, don't neglect your condition. Get a box of Bliss Native Herb Tablets, take one or two at bedtime, and you will note an immediate improvement. For over thirty years they have proved a wonderful aid to men, women and children in maintaining health and vigor. George Grindstaff, Decatur, Tenn., writes: "I was all run-down in health, and it seemed nothing would help me. I was induced to try Bliss Native Herb Tablets. I am thankful for this wonderful remedy, because I am enjoying good health." Don't delay taking Bliss Native Herb Tablets. There is nothing to equal them for removing the cause of constipation, liver and kidney trouble, sick headache, rheumatism or disordered stomach. They stimulate the liver, purify the blood and tone up the system, also improve the appetite. Get the genuine. Look for the trade mark and money back guarantee on every box. Price \$1.00 per box of 200 tablets.

## The Kaiser as I Knew Him For Fourteen Years

By  
ARTHUR N. DAVIS, D. D. S.

(Copyright, 1918, by the McClure Newspaper Syndicate)

Through speculators, we obtained some imitation soft soap at \$1 per pound. People said it was made from human corpses, but it was the only thing available outside of the substitutes which were soap only in name. A small cake of toilet soap easily brought \$2. A servant's plain wooden wardrobe, formerly costing \$5, was unobtainable for less than \$50. We paid as high as \$8 a pound for butter, from a speculator, and my last Christmas dinner in Berlin consisted of a small goose, just enough for one meal for three persons, for which I paid \$25.

One of the things the people missed most, of course, was their beer. While it was put on sale at 8 p. m. every night, only a limited amount was available and as soon as it was disposed of, only coffee or tea substituted, without sugar, milk or lemons, could be had.

The scarcity of metals required for munitions was evidenced early in the war when the interiors and exteriors of houses throughout the country were thoroughly ransacked and everything in the way of copper, brass or aluminum fixtures or cooking utensils that wasn't absolutely necessary was seized.

Horses were gradually disappearing from sight when I left early this year. One saw them lying about the streets where they dropped from exhaustion, and what disposition was made of their corpses can well be imagined. It is quite certain that no part was wasted.

Dogs, too, nearly vanished from city life. A man I know, who had kept a fine Newfoundland dog, told me that he had disappeared one night and the next day its skin was found hanging on the fence with a sign reading: "Died for the fatherland."

One of the principal articles of fresh meat to be seen in the butcher shops consisted of black crow. They were selling at 75 cents apiece. There was something ludicrous in the thought of the Germans being compelled to "eat crow," but there was little to laugh at in eating it oneself.

To obtain oil, prizes were offered to the school children to collect fruit seeds, from which it could be extracted, and veritable mountains of the seeds were thus obtained.

The last meal I had in Berlin was on January 21, 1918, when I dined at the Hotel Adlon. It consisted of one sardine, three thin slices of cold smoked salmon, soup which was hardly more than hot salt water, two small boiled potatoes and as a substitute for cornstarch pudding. No butter and no sauce of any kind were served. Black bread I took in my pocket. The check for this elaborate table d'hôte meal amounted to \$4.50.

To sum up the situation as I was able to observe it, living conditions in Germany in January of this year were rapidly becoming absolutely unbearable. How much worse they can become without bringing on internal troubles when will bring about the collapse of the German empire can be only a matter of conjecture.

The twentieth century has seen such radical changes in world conditions, views and aspirations, that I am afraid history will prove but a poor guide to the future. In the past few centuries, Germany has experienced several more or less serious social revolutions, but it would be dangerous to predicate very much upon those abortive uprisings.

As long as the officers remain staunch to the Kaiser little may be expected in the way of a successful revolution, no matter how discontented and rebellious the people at large may grow, but I believe that the time will surely come when the officers themselves will turn against their government.

There may be two revolutions. The civilians, consisting of women, old men and youths and others who have not been called into the army may rise up, but their effort will be in vain. The defect of such an uprising, however, may be the signal for a greater one in which a portion of the army itself will take part, and then a civil war will result which will have no counterpart in the world's history.

The basis for this belief lies in the fact that the officers of the German army realize the extent of the distress prevailing throughout the country. Their families, as well as those of the rank and file are suffering from under-

nourishment and privations, and they know, even better than their inferiors, the extent of the reverses which the German army has suffered and will continue to suffer and how the government has misrepresented actual conditions.

If the German officers consisted entirely of men of the old school—men who were willing to fight for fighting's sake and who would rather continue the war until the last German had dropped than give in—we could not look for much in this direction.

But the ravages of war have disposed of a large percentage of these bred-in-the-bone officers and their places have been taken by civilians who have been raised from the ranks. Therein lies the hope of a successful revolution.

I will not venture a guess as to when that will be, but I feel sure that it will certainly come about. Fortified by a large portion of the army, the German people will at last turn on their rulers and destroy the throne and the whole Hohenzollern regime.

In this connection, I recall a prophecy made early in the war by an honored colleague of mine of Dresden, an American dentist who had lived and practiced in Germany for forty years and understood the German people and their rulers as well, perhaps, as any man alive. He was a leader of his profession and a man whose judgment on all things was most accurate. He was in close contact with many leading figures of the German nobility.

"Germany will lose the war because her cause is wrong," he declared. "She will fight it through to the bitter end until the foundations of the empire are absolutely destroyed."

THE END.

## LETTER FROM 116TH OFFICER TELLS HOW CO. C FOUGHT TO END

Continued from Page One.

"They held this position for almost a week before the 'push' came. The Hunns were in such force that an order was issued to fall back a short distance. The French got the order and retreated. Company B received it later and got back but with the loss of some men, while Company C did not get it at all, and of course the inevitable happened, as they were quickly surrounded.

"History will tell of the heroic stand they made, and what effect it had in causing the great Hun offensive to be checked. His retreat started back across the Marne there and then we have been chasing him ever since, as you have seen from the papers and maps.

"Company C is now commanded by Lieutenant Scott, of Monongahela, Pa., formerly Battalion Adjutant. He was appointed at the solicitation of the remaining men, who hope he will be made their permanent commander.

"Newly Saylor and Walter Jones were the only Somerset boys who returned from the battle. Mariz and Lowry from Glenora, Bakerstown from Hubert, and two Italian boys from Hopewell returned later.

"Harry Campbell was on his way to the company in charge of a baggage detail that had been left behind, but had only proceeded as far as the kitchen when the battle started, so he got out with the loss of only one man.

"Walter Jones and Corporal Mariz proved themselves heroes and will be heard of later.

"Royden Shaulis is in a hospital, and not seriously wounded.

"Colonel Tompkins, formerly of the 11th U. S. Cavalry and later with the 301st Infantry, took command of our regiment today, Colonel Kemp being relieved."

## BY-PRODUCT OUTPUT

Made Gain of 5,000 Tons With Ovens Operating 90.1% of Capacity.

According to the United States Geological Survey, the production of by-product coke during the week ending August 31 was 551,080 tons, or 90.1 per cent of capacity, a gain of 5,022 tons from the week of August 24, when the ovens were operated at 89.6 per cent of capacity.

The production of beehive coke, including the Connellsville region, for the week of August 31, was 517,000 tons, or three per cent increase over the preceding week.

The total coke production, beehive and by-product, was 1,068,080 tons, a gain of 30,022 tons compared with the week ending August 24.

Why the Colors Vary.  
Pure water, according to Lord Rutherford, is greenish blue, while pure air is blue, because, according to Rutherford's dictum, the molecules of the air are sufficiently large to reflect blue rays.

English Words on Increase.  
The English vocabulary has grown to great size. The number of words found in old English literature does not exceed 30,000; recent dictionaries have listed more than 400,000.

## Cuticura Heals Ringworm On Boy

Scaly and Seemed Itchy. Could Not Bear to Be Touched. Troubled Six Months.

Nothing Purer, Sweeter, For All Skin Troubles Than Cuticura.

"My boy had what looked like ringworm on his left cheek. It was as large as a half dollar and every time I took him out got brighter and would turn red. It was scaly, and seemed to be itchy and he wanted to scratch. The child was cross, and could not bear to have anyone touch him.

"The trouble lasted about six months before we tried Cuticura Soap and Ointment, and in about three weeks he was healed." (Signed) Mrs. Harriet Thompson, 2449 Gray's Ferry Road, Philadelphia, Pa., October 15, 1917.

If you have a poor complexion improve it by using Cuticura Soap daily and Cuticura Ointment occasionally. Sample Each Free by Mail. Address postcard "Cuticura," Dept. R, Boston. Sold everywhere. Soap 25c. Ointment 25c. and 50c.

## Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.  
Given the right kind of medicine, say tired-out, lagging fellows can quickly be made into a real live, energetic and even ambitious man.  
So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to make a regular job to get a package of Bio-tren at any drugist.  
This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.  
People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks.  
No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-tren at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.  
Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.  
Note to Physicians: There is no secret about the formula of Bio-tren. It is printed on every package. Here it is: Lecithin, Calcium, Glycophosphoric, Iron, Potassium, Manganese, Potassium, Ext. Nut. Yeast, Powdered Gentian, Phosphoric Acid, Oleic Acid, Capsicum, Kola.

## EUGENE SHOWALTER VICTIM OF SHELL SHOCK

Mr. and Mrs. W. A. Showalter of Latrobe, have received a letter from their son, Corporal Eugene Showalter, of Company M, 110th regiment, telling them that he was in a hospital suffering from a shell shock. Corporal Showalter, who is a nephew of Mrs. Rose Showalter of this city, tells of an experience which he and four other Company M boys underwent while on outpost duty in No Man's Land. In the darkness of the night they were feeling their way along the outpost when suddenly from the German line a machine gun opened fire on them.

The soldiers dropped to the ground and crawled to a dugout, as they thought to safety. They were startled to find inside of the hole a machine gun nest and six German soldiers waiting for an outpost to open fire. A hand to hand battle ensued, and the Latrobe boys made good use of their bayonets for six Germans were killed by the "M" boys. Corporal Showalter has two brothers, Sergeant Clarence E. Showalter, and Lieutenant Maurice A. Showalter, also in France.

## STRIKE SETTLED

Trouble at Fayette Is Adjusted By J. S. Barr and D. T. Hirleman.

A strike which resulted from equipping labor at the Vangs construction company camp at Fayette has been settled temporarily and the men who were out have now returned to work. The strike took place when a foreman by the name of Baker that has charge of some labor work on the Baltimore & Ohio railroad, went to the Vangs construction camp, which company is building a bridge for the West Penn at Fayette and offered the men more wages.

MILLINERY AND FOOTWEAR  
Millinery Modes for Autumn

If there is any distinguishing characteristics of the New Hats for Autumn, a majority of judges would probably say it was found in their SIMPLICITY.

And being simple they may be put to many uses, so that every woman's particular millinery requirements for street or dress occasions may be delightfully realized.

## New Modes as Shown Here

include velours, feather turbans, ostrich trimmed hats, and hats of Lyons velvet, in tricorne and mushroom shapes. While expressing simplicity in many distinctive and original ways, they have the added grace of modest pricings.

For street and knockabout wear we have a splendid assortment of Felts in turquoise, rose, green, brown and taupe, at \$2.50 to \$5.00.

The men who were working for the Vangs Construction company were receiving 62½ cents an hour and their helpers 50 cents an hour. Baker is alleged to have needed some men and to have offered the men 80 cents an hour if they would work for him. The men then asked the company to raise their wages and upon refusal they went on a strike, some going to work for Baker. Factory Inspector J. S. Barr, who was in the neighborhood adjusting some other labor trouble heard of the walk-out and he immediately got into communication with D. T. Hirleman, who is in charge of the labor bureau here. Both men went to the camp.

Evidently Baker did not know that to solicit labor from one place to another without the consent of the local labor bureau was a violation of the

## STYLE HEADQUARTERS

Where Society Brand Clothes are sold

## New FALL CLOTHES That Exceed Your Expectations

SO MUCH has been said about the scarcity of good fabrics and the cramping of facilities for making them up into your kind of garments that you're probably expecting to wear a Fall Suit of the worst sort of cotton—shoddy—and tailored to match.

And maybe that's all you SHOULD expect from the ordinary run of clothes. We don't know.

But we do know that the man who expects this and then comes for a Wright-Metzler Suit or Coat will be dressed as he had not hoped for.

A brief look will satisfy you completely as to style and color—and if you look still closer you'll find tailoring at least the equal of any you've ever known in pre-war days.

For young men military and closely fitting waist seam models are featured. These are full-lined or half lined with silk and mohair, and offer a wide selection of patterns and colors.

For older men there are dozens of gentle, conservative styles, tailored from the finest fabrics. Sizes begin at 32 and go up to 50, including extra long and stouts to guarantee a perfect fit for all.

Priced \$20 to \$60 with Feature Showings at \$30 and \$35.

## OVERCOATS

\$15 to \$75

Men's and young men's overcoats cut from warm serviceable materials, and styled full, with half belt in back.

A special double-breasted storm collar coat for men who drive a great deal.

For the young man special form-fitting double-breasted models in a fine range of plain colors.

All cloth coats \$15 and by very easy stages upward. Fur trimmed Coats for as low as \$30.

## For Boys Going to School

Much clothing is being advertised and sold—but most parents with active, school going sons to dress want to be satisfied with anything less than the clothes they know are backed by an established reputation for reliability. Wright-Metzler clothes have enjoyed that distinction for a dozen years and more, and never deserved it better than today.

For instance our splendid showing of Boys' School Suits at \$6.50 to \$20 will meet your sternest tests of quality, service and value. Colors and styles are finely varied and impossible of duplication. Some Suits, with 2 pairs of pants. Taken individually there are:—

—A Blue Serge Suit special at \$10. Other serges at \$12.50, \$13 and \$20.  
—A Corduroy Suit special at \$6.50. Another at \$10.  
—Extra Trousers at \$1.00 to \$3.00.  
—Extra Blue Serge Trousers, lined, special at \$3.00.  
—Extra Corduroy Trousers, special at \$1.50 and \$2.00.  
—Boys' Overcoats, 2½ to 12 years, at \$6.50 to \$20.  
—Youths' Overcoats, 12 to 18 years, at \$12 to \$20.
